Tour Guide

Ethiopia's World Heritage Sites

The small town of Lalibeia in northern Ethiopia is famous for its 11 rock hewn churches daring back to the 12th century.

The historic walled city of Harar in eastern Ethiopia was a major trading crossroads and a centre of Islamic learning.

The oldest of Gondar's many imperial structures is the impressive 17th century palace of Emperor Fasilidas. Many other fascinating historical buildings

Axum is renowned for the world's tallest monoliths, or obelisks, which experts say were erected to mark

The dramatic mountainous landscape of the Simien National Park in northern Ethiopia is home to some of the rarest animals on earth.

Lower Omo is another haven of prehistoric finds which have been essential in the study of human evolution.

Tiya Stones are natural stones located in the southern part of Ethiopia.

One of the world's most famous hominid fossils, known as Lucy, was discovered in the Lower Awash Valley.

Konso Cultural Landscape is a 55 square km arid property of stone walled terraces and fortified settlements in the Konso highlands of Ethiopia.
